*For Official Use Only***FIELD COVERAGE SCHEDULE**

STAT
STAT

This report lists the electronic and printed media which the field installations of the Foreign Broadcast Information Service maintain on scheduled coverage. It includes also that coverage maintained by the British Broadcasting Corporation [] which complements FBIS coverage.

The schedule groups the listings by country of origin and sourceline. Multiple sourcelines head any coverage to which two or more sourcelines are applicable, with the principal sourceline listed first. Those broadcasts, press agency transmissions, and publications which do not announce their true countries of origin appear in the "Clandestine" section.

The sourcelines under each country appear in the following order:

- international broadcasts from the chief broadcasting city and then from other cities in alphabetical order
- domestic radio and television broadcasts from the chief broadcasting city and then from other cities in alphabetical order
- international presscasts
- domestic presscasts from the principal commercial center and then from other cities in alphabetical order
- publications from the national capital and then from other cities in alphabetical order

Within these groups official transmissions precede semi-official and private ones, national services precede regional services, and network broadcasts precede local separations. Otherwise sourcelines for electronic coverage appear in alphabetical order of language whenever the principal difference among them is the language. Publications from any given city appear in alphabetical order of their masthead titles, definite articles included.

CONTENT OF THE COLUMNS

This schedule expresses the TIMES (electronic coverage only) in Greenwich Mean Time (EST + 5 hours or EDT + 4 hours) and shows the nominal starting time and the ending time for each item of coverage. "0000" stands for the first moment of the GMT day and "2400" the last moment. If a cast does not adhere to a fixed schedule, the listing shows the nominal starting time followed by an ending time chosen to show the usual duration of the cast. The bureaus

sustain intercept and recording as long as is necessary to monitor the entire cast. Listings of broadcasts under each sourceline start with the earliest coverage of the local broadcast day; those for press transmissions start with the casts having the lowest item numbers.

These listings show the DAYS OF TRANSMISSION OR PUBLICATION by the use of initials of the days of the week, with certain exceptions. The word "daily" stands for transmissions expected every day. The word "note" indicates a complex schedule which is explained in the NOTES column and the abbreviation "irreg" denotes transmission on a random basis.

It shows the COVERAGE DAYS (electronic coverage only), the days of transmission scheduled for monitoring, in the same way. It shows all priority 3 and backstop coverage as irregular.

The LAG IN RECEIPT (publications coverage only) is self-explanatory.

The INDEX OF INPUT shows the average number of minutes per week (electronic) or issues per week (publications) of regular coverage available to FBIS.

The USUAL MONITORABILITY (electronic coverage only) has four permissible values: "good" (all words monitorable), "fair" (occasional words and phrases unmonitorable, suitable for texting), "poor" (intermittently monitorable, unsuitable for texting), or "unm" (unmonitorable, no processing possible).

The ISSUES YEARLY column (publications coverage only) is self-explanatory.

The PRIORITY shows the relative certainty and speed of processing given to the coverage under normal circumstances. Bureaus may override priorities during emergencies. A numeral indicates the priority:

1. (Preferred Coverage)—This takes precedence over all work. Field bureaus process this coverage as soon as possible after intercept or receipt. The bureaus do not drop such coverage without the concurrence of Headquarters unless arrangements have been made for alternate coverage.

2. (Standard Coverage)—The bureaus process this on a reasonably current basis—usually within 24 hours of receipt.

3. (Contingent or Nominal Coverage)—The bureaus process this irregularly, as staffing and other considerations allow or as ad hoc projects require.

For Official Use Only

For Official Use Only

The bureaus assign the same priorities to backstop coverage as to primary coverage but they monitor the backstops only when the originals are missed or unmonitorable.

An alphabetical symbol indicates the PURPOSE OF COVERAGE:

A—general coverage producing a substantial volume of material for the Daily Report or the FBIS Wire

C—coverage from a unique source which produces a limited volume of publishable wordage

E—coverage monitored primarily for reports on economics

J—coverage taken primarily for use in the publications of the Production Group

L—coverage monitored primarily to serve lateral recipients

V—coverage monitored principally for the preparation of video selection lists

W—watch or cruising function, including the coverage of program previews

Z—backstop coverage monitored only when other coverage is missed or unmonitorable

X—coverage monitored for another reason

Digraphs indicate the MONITORING FACILITY:
